SULTAN WALKS STREET

TURKS RUSH TO PALACE TO GET SIGHT OF THEIR RULER.

(By Associated Press.)
CONSTANTINOPLE, Aug. 1.—A Hattı Humayun, or imperial hatt, was read this evening before the sublime porte, solemnly upholding the constitution and enumerating all exceptional measures of the old regime which are declared now completely abolished. Abdul Hamid walked among the people in the streets for the first time since his accession to the throne in 1876 on the position of his elder brother, Murad V. He was accompanied by a single official in plain clothes and returned to Yıldız Kiosk unrecognized, as the people are unacquainted with his features, therefore they did not know him. Soon news of this remarkable departure from the habits of the sultan became generally known and there was a rush of Turks to the palace, where much enthusiasm followed.

PLAN ARREST OF LABOR LEADERS

(By Associated Press.)
PARIS, Aug. 1.—There is excitement among the labor leaders of Paris over the outcome of the recent trouble at Vigneux. That the government is to forever crush such demonstrations is generally recognized, they having reached a feverish if not dangerous state of unrest. The government is preparing to prevent outbreaks on Sunday and Monday, when a second strike called by the federation of labor is due to take effect. Additional arrests of labor leaders are planned.

WILL SUPPORT PARISIANS.
TOULON, Aug. 1.—The unionists of Toulon voted to support the Parisian laborites, which indicates there is a possibility of the labor trouble spreading to the provinces.

CORTELYOU TO RUN AGAINST HUGHES

NEW YORK, Aug. 1.—Gossip has been in circulation in this city for several days to the effect that George B. Cortelyou, secretary of the treasury, would allow the use of his name as a candidate on the Republican ticket for governor against Hughes. The gossip apparently had no basis in any statement by Mr. Cortelyou or his friends. It is said some of the leaders of the Republican state organization approached Mr. Cortelyou before Governor Hughes announced his willingness to accept re-nomination, and that these leaders asked Mr. Cortelyou whether he would be willing to become a candidate in the event that further consideration indicated his probable nomination. It is not known definitely whether the nomination was offered to Mr. Cortelyou.

ANOTHER RAILROAD FOR WINNEMUCCA

RENO, Aug. 1.—If railroad rumors now prevalent are correct the town of Winnemucca, in Humboldt county, is destined to become the greatest railroad center in Nevada. At the present time the Southern Pacific runs through Winnemucca and the Western Pacific line is being built through the town. A survey is also being made for the Golden Gate route, which will extend from Boise to Winnemucca, to connect with the Gould line at that point, and now rumor has it that the Rock Island line is to build through Nevada, making Winnemucca a terminal point to Portland, Oregon, and that work has been started. If this is true there will be four big roads running into the town of Winnemucca.

Chicago Girl Returns to Her Home After Police Fail to Find Her—Tells Story of Being Held in Cincinnati.

(By Associated Press.)
CHICAGO, Aug. 1.—Veronica Cassidy, the 12-year-old girl, whose mysterious abduction last Thursday caused unusual police activity here and in other cities returned to her home tonight from Cincinnati, whither she had been taken by her alleged abductor, F. J. Blair. She told her parents that Blair had placed her on board a train immediately after leading her away from home and that they had been in a rooming house in the Ohio city until this morning when the man gave her a ticket to Chicago and told her to go home. The unexpected return of the child turned the house of mourning into a palace of joy. Their grief had been heightened by the belief that Blair was identical with Charles E. Hadley, who kidnapped Eleanor Fuller in San Francisco six years ago, and later strangled her. Comparison of photos, descriptions and handwritings seemingly established this as a fact.

(By Associated Press.)
CARSON, Aug. 1.—The appointment of a receiver for the Merchants and Miners, and the Bank of Rawhide, which proceedings give promise of developing a determined fight on the part of the latter bank's officials. It is understood that the attorneys for the Merchants and Miners' bank will claim that they are not under the jurisdiction of the court to appoint a receiver, that the law relating to corporations has no bearing in this case because there is no corporation, but a co-partnership concerned, and that the Merchants bank has all of the assets and intends to keep charge of them.

DISMISSES TWO ACCUSED MEN

RENO, Aug. 1.—After hearing the evidence in the case of Charles H. Raymond and William H. Nagle, charged by the Nat. C. Goodwin company with grand larceny for taking a number of names from the Goodwin offices, Judge Bell dismissed the complaint and ordered the prisoners released. District Attorney Moran was assisted in the prosecution by James T. Boyd, while Edward O'Brien and Attorney Vanderwerker conducted the defense.

The evidence showed that the accused were employed by the Goodwin company during the month of June, afterward leaving that employment and engaging in business for themselves, writing letters to a number of correspondents of their former employers. Some of the letters were seized and offered in evidence, but after hearing the statements of the accused, Judge Bell decided that the offense charged had not been proved.

The fire destroyed 4,000,000 feet of lumber, besides burning three large construction camps. The blaze stripped 1000 acres of choice timber land before it was checked.

PRESIDENT DIAZ TO REVIEW LAWS

CITY OF MEXICO, Aug. 1.—It is officially announced that at a meeting of the cabinet it was decided to refer the proposed new mining law to President Diaz with power to act. A brief of all the arguments for and against the measure will be submitted to the president. With this as a basis, President Diaz will decide either to enforce the law at once by presidential decree or refer the whole matter to the session of congress on September 16.

The clause of the proposed law which has created such a storm of protests directly affects foreigners. It provides that no foreign corporation can acquire mining property in the republic, and prohibits the location or acquisition of the mining properties in the states bordering on the United States without special permission.

Congress at its last session authorized President Diaz to enforce the new law without awaiting the action by the legislative branch if he saw fit to do so.

Ward of Goldfield, the supreme court yesterday granted a stay of execution in the case of George Williams, sentenced to die on the gallows in the Carson penitentiary on August 5, for the murder of two prospectors named Connors and Griffin at Stimler near Goldfield, about a year ago. Ward declared that the confession of Williams should not have been granted at the trial in Goldfield and it was on this showing that the stay of execution was granted. Ward will now have time to appeal the case of Williams to the supreme court.

Williams was placed in the death cell several days ago but when the stay of execution was granted he was taken from the death cell and the death watch removed.

She asks that should the investigation develop any property that she be declared as owning a half interest in the same.
